

TITLE: ML in finance: forecasting and usage of large language models

DESCRIPTION

The laboratory will go through the different application of data science in the financial world.

We will focus practically on a forecasting use case, trying then to use a large language model to extract precious information from a news stream to enrich the model.

During the lab, we will give a general introduction on GPT family models and challenges/opportunities of the real-world usage of these models.

DURATION

20 hrs:

- May 25th 2023, from 14.00 to 19.00 (in presence)
- June 1st 2023, from 14.00 to 19.00 (on line)
- June 6th 2023, from 14.00 to 19.00 (in presence)
- June 15th 2023, from 14.00 to 19.00 (on line)

ELIGIBLE STUDENTS around 15 students

HOW TO APPLY

Send an email at dse@unimi.it, with your CV and cover letter explaining why you want to join this lab and how you meet the requirements.

- email: dse@unimi.it
- Attachments: CV and cover letter

DEADLINE May 14th 2023
